

**Plain Language Summary for New Source Review (NSR)
Initial Application for Air New Source Review Permit Number 183952**

The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

Royal Concrete Products LLC, CN604206599 has submitted an application for initial permit number 183952. The

Concrete Batch Plant Brownsville will produce/manufacture ready mixed concrete at 912 N Indiana Ave Brownsville, TX 78521, Cameron County.

This permit will authorize the operation of a concrete batch plant to produce ready mix concrete by receiving, storing and mixing raw materials for manufacture and off-site delivery. Royal Concrete Products LLC has listed in the application the pollutants and amounts that will be emitted for each facility. Below is the total amount for each pollutant that is proposed to be emitted each year for all the facilities.

Pollutant	Proposed Emissions (tons per year)
PM	.64
PM₁₀	.40
PM_{2.5}	.074

The new facilities will be controlled by dust control systems such as baghouses, central dust collector and water spraying to mitigate particulate emissions.
