

**Plain Language Summary for New Source Review (NSR) Renewal
Application for Air New Source Review Permit Number 29235**

The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

Anodics, Inc. (CN600262547) has submitted an application for renewal of permit number 29235. The metal finishing shop (RN100551589) provides anodizing services at 4105 Murray Ave., Haltom City, Tarrant County.

This renewal will authorize the continued operation of the metal finishing facility which includes chromic acid anodizing. Anodics has listed in the application the pollutants and amounts that will be emitted by the facility. Below is the total amount for each pollutant that is proposed to be emitted each year for all the facilities.

Pollutant	Proposed Emissions (tons per year)
Chromium from demister stack	<0.0002
Chromium from building fugitives	0.0009
Sulfuric Acid	0.033
PM10	0.014
Sulfur Dioxide	<0.001
Total oxides of Nitrogen	0.11
VOC	<0.014

The facilities being renewed continue to be controlled by fume suppressants.
