

Plain Language Summary for New Source Review (NSR) Renewal Certification Application for Air New Source Review Permit Number 24538

The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

US Department of the Army (CN600126262) has submitted an application for renewal of permit number 24538. Fort Hood (RN101612083) produces/manufactures Surface Coating at 1388 Engineer Drive Building 4612, Bell County.

This renewal will authorize the continued operation of LRC Ground Surface Coating and the AMCOM Aviation Surface Coating Facilities. US Department of the Army has certified there will be no changes to the permit. The following permitted emission rates will remain the same.

Pollutant	Total Amount Allowed (tons per year)
HAPS	25
CO	250
NOx	250
PM	250
PM10	250
PM2.5	250
SO2	250
Ozone (as VOC)	250
Pb	250
Exempt Solvent	250

The facilities being renewed continue to be controlled by filter pads designed or warranted to achieve a filter efficiency of 99 percent or greater for particulate matter (PM) ventilated through stacks.
