

Plain Language Summary for New Source Review (NSR) Renewal Amendment Application for Air New Source Review Permit Number 72653

The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

Waste Control Specialists LLC (CN600616890) has submitted an application for renewal of and amendment to permit number 72653. The Waste Control Specialists Site (RN101702439) operates a commercial waste handling facility at 998 W State Highway 176, Andrews, Andrews County.

This renewal will authorize the continued operation of a commercial waste handling facility. The amendment will authorize an update in representations to the characterization of received wastes, updated emission factors, and updated process throughput rates. Waste Control Specialists LLC listed in the application the pollutants and amounts that will be emitted for each facility. Below is the current amount allowed the amount to be added or removed, and the total amount for each pollutant that is proposed to be emitted each year for all the facilities.

Pollutant	Permitted Emissions (tons per year)	Emissions Added/Deleted (tons per year)	Total Proposed Emissions (tons per year)
VOC	76.83	-49.07	27.76
PM	22.31	-4.58	17.76
PM ₁₀	7.06	-0.97	6.12
PM _{2.5}	7.06	-5.35	1.74

The facilities being renewed are controlled by best management practices, container coverage, air cartridge filters, HEPA filters, overhead water spray, baghouses, and fully enclosed buildings. The new and/or modified facilities will be controlled by best management practices, container coverage, air cartridge filters, HEPA filters, overhead water spray, baghouses, and fully enclosed buildings.
