

**Plain Language Summary for New Source Review (NSR) Renewal Certification Application for  
Air New Source Review Permit Number 56318**

*The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.*

Channel Shipyard (CN 600129662) has submitted an application for renewal of permit number 56318. The South and North Docks Barge Cleaning and Degassing (RN 100218429) conducts barge cleaning and degassing at 999 Independence Pkwy N, Baytown, Harris County.

This renewal will authorize the continued operation of Channel Shipyard's South and North dock barge cleaning and degassing sites. Channel Shipyard has certified there will be no changes to the permit. The following permitted emission rates will remain the same.

| <b>Pollutant</b> | <b>Total Amount Allowed (tons per year)</b> |
|------------------|---------------------------------------------|
| VOC              | 34.27                                       |
| Acetone          | 49.74                                       |
| Benzene          | 6.08                                        |
| Styrene          | 15.39                                       |
| CO               | 20.92                                       |
| NOx              | 13.76                                       |
| SO2              | 0.02                                        |

The facilities being renewed continue to be controlled by vapor destruction units, dual non-regenerative carbon adsorption.
