

Plain Language Summary for New Source Review (NSR) Renewal Application for Air New Source Review Permit Number 76691

The following summary is provided for this pending air permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

ICC Acquisition Corporation (CN606532307) has submitted an application for renewal of permit number 76691. The Houston Facility (RN100661313) produces cellulose spray-applied thermal insulation and acoustical finishes located at 12315 Robin Road in Houston, Harris County, Texas.

This renewal will authorize the continued operation of the Houston Facility under NSR Permit 76691, which includes hammer mill and adhesive mixing operations. ICC Acquisition Corporation has listed in the application the pollutants and amounts that will be emitted for each facility. Below is the total amount for each pollutant that is proposed to be emitted each year for all the facilities.

Pollutant	Proposed Emissions (tons per year)
VOC	0.16
NO _x	0.35
CO	0.29
PM	6.03
PM ₁₀	6.03
SO ₂	0.01
HAP	0.16

The hammer mill operations being renewed will continue to be controlled by bag houses and the rest of the operations will continue to comply with best operating practices.
