NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR AIR QUALITY PERMITS

AIR QUALITY PERMIT NUMBERS 122353, PSDTX1426M1, AND GHGPSDTX114M1

APPLICATION AND PRELIMINARY DECISION. Bayport Polymers LLC, 7600 32nd Street, Port Arthur, TX 77642-7901, has applied to the Texas Commission on Environmental Quality (TCEQ) for an amendment to State Air Quality Permit 122353, modification to Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX1426M1, and modification to Greenhouse Gas (GHG) PSD Air Quality Permit GHGPSDTX114M1 for emissions of GHGs, which would authorize modification to the Bayport Polymers located at 7600 32nd Street, Port Arthur, Jefferson County, Texas 77642. This application was processed in an expedited manner, as allowed by the commission's rules in 30 Texas Administrative Code, Chapter 101, Subchapter J. **AVISO DE IDIOMA ALTERNATIVO.** El aviso de idioma alternativo en español está disponible en <https://www.tceq.texas.gov/permitting/air/newsourcereview/airpermits-pendingpermit-apps>. The existing facility will emit the following air contaminants in a significant amount: Particulate matter with a diameter of less than 10 microns and particulate matter with a diameter of less than 2.5 microns. In addition, the facility will emit the following air contaminants: carbon monoxide, nitrogen oxides, organic compounds, particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less, sulfur dioxide, and sulfuric acid. The facility will also emit greenhouse gases.

A full PSD increment analysis was not required because the predicted impact of all pollutants subject to PSD increment review were below the significant impact level for each pollutant.

This application was submitted to the TCEQ on February 2, 2024. The executive director has determined that the emissions of air contaminants from the existing facility which are subject to PSD review will not violate any state or federal air quality regulations and will not have any significant adverse impact on soils, vegetation, or visibility. All air contaminants have been evaluated, and "best available control technology" will be used for the control of these contaminants.

The executive director has completed the technical review of the application and prepared a draft permit which, if approved, would establish the conditions under which the facility must operate. The permit application, executive director's preliminary decision, draft permit, and the executive director's preliminary determination summary and executive director's air quality analysis, will be available for viewing and copying at the TCEQ central office, the TCEQ Beaumont regional office, and at Port Arthur Library, 4615 9th Avenue, Port Arthur, Jefferson County, Texas, beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review at the TCEQ Beaumont Regional Office, 3870 Eastex Freeway, Beaumont, Texas.
